Abhishek Bhatta

Developer || Programmer

I am a passionate and dedicated software developer with a strong focus on full-stack development, specializing in JavaScript, Node.js, and Python. I enjoy building efficient, scalable applications and continuously improving my problem-solving skills. I thrive in dynamic environments, particularly in software development companies and tech startups, where I can collaborate with like-minded individuals, contribute to innovative projects, and create user-friendly applications that enhance the digital experience. I am always eager to learn new technologies and take on new challenges

ACHIEVEMENTS

Developed Sonic Vibes, a Real-Time Music Web App

Designed and built Sonic Vibes using the MERN stack, Socket.io for real-time playlist features, and Clerk for secure authentication, creating an interactive music platform during my BCA coursework.

EXPERIENCE

Self-Learning & Personal Development

TRAINING/CERTIFICATIONS

Meta jS course
META / 2023

During the Meta JavaScript certification, I developed interactive web applications, including dynamic UI components and real-time features using JavaScript, while mastering DOM manipulation, event handling, and API integration through hands-on projects.

PROJECTS

Sonic Vibes - A online webbase music application

Sonic Vibes is an online music web app built with the MERN stack (MongoDB, Express.js, React, Node.js) and Socket.io for real-time features like live playlists or chat. It uses Clerk for seamless and secure user authentication, letting you log in effortlessly to enjoy a dynamic, music-driven experience.

Currency Converter

This Currency Converter is a sleek, user-friendly web app crafted with React for smooth interactivity and Tailwind CSS for a sharp, responsive design. It lets users quickly convert between currencies with real-time exchange rates, blending functionality with a modern, stylish look.
